EXPERIENCE

Recordent Technologies Pvt. Ltd., Hyderabad

Aug 2024 – Present

Full Stack Developer Intern

- Developed a robust notification system integrating Email, SMS, and WhatsApp, boosting engagement.
- Optimized frontend performance with lazy loading and Azure Blob Storage for video offloading.
- Built features like offer pages and “Refer and Earn” to increase user retention.
- Revamped the subscription journey with stage-wise flow and instant reminders.
- Contributed to React Native mobile app development, including architecture and end-to-end delivery.
- Implemented AES encryption across critical modules for secure data handling.
- Worked in Agile—standups, sprint planning, and code reviews to maintain velocity and quality.

PROJECTS

Employee Management System

Full-Stack App [GitHub]

- React frontend, Java backend, Oracle DB — full CRUD with secure login and role-based access.
- Scalable architecture with enterprise-grade UI/UX.

Cricket Scoreboard Tracker

Web App [GitHub]

- Built live cricket scorecard with React.js and Java backend.
- Dynamic stat rendering and responsive design.

Recordent.com Product (Ongoing)

Company Project – Recordent Technologies Pvt. Ltd.

- Building real-world product features including secure APIs and front-end improvements.
- Engaged in Agile development with release planning and sprint collaboration.
